Our Businesses

Schwab provides financial services to our clients through two segments – Investor Services and Advisor Services:

Investor Services provides a modern, full-service brokerage platform that serves millions of individual investors who invest on their own or through a workplace-sponsored retirement or equity plan, as well as banking through Schwab Bank.

Advisor Services provides trading, custody, technology, practice management, and other support services to more than 7,500 independent investment advisors.

Both of these segments offer Schwab's wide range of financial products and services, as well as an extensive selection of third party products. Both segments also offer advice solutions, including separately managed accounts, customized personal advice for tailored portfolios, specialized planning, and full-time portfolio management.

All of our business enterprises contribute to the work of Schwab Community Services and the Charles Schwab Foundation, through which we give time, talents and funding to help strengthen individuals' financial skills.
